## Expertise

**TOOLING.** BATZ has become a European leader in stamping dies for a wide range of materials, applied in structural as well skin panels. From conventional to transferred tooling as well as complex progressive ones, BATZ undertakes customers new challenges offering innovative solutions for any kind of material, the most innovative aluminium alloys or high and ultra-high strength steels. BATZ has consolidated its continuous technological development with Hotteknik, the cutting edge equipment for boron steel press hardening

**AUTOMOTIVE SYSTEMS.** BATZ is qualified and acknowledged by the leading OEMs in the automotive sector in the design and manufacture of mechanical and mechatronic control systems, characterised by providing safe, lightweight, ergonomic and efficient attributes.
